# SAGAR SANDEEP DHARAGLKAR

dharaglkarsagar@gmail.com — +91 8262878298

## Summary

Motivated and detail-oriented Computer Science graduate with hands-on experience in full-stack development, and problem-solving through data structures and algorithms. Skilled in building responsive, user-centric applications using modern technologies and clean architectural patterns. Adept at collaborating in fast-paced environments and continuously improving through feedback and iteration. Passionate about crafting intuitive user interfaces and writing maintainable code.

#### Technical Skills

Framwork: ASP.NET, React.js
Backend: Node js, Express.js
Databases: SQL, MySql, MongoDB
Languages: Java, JavaScript, Python

Tools: Android Studio, IntelliJ, PyCharm, Eclipse, Git, Visual Studio

#### **Experience**

### VENGURLA TECH | ASP.NET, JavaScript, Firebase, Bootstrap

Software Developer | Jan 2025 - Present, Vengurla, MH

- Enhanced society payment app with **real-time notifications** via Firebase and optimized performance using client-side JavaScript.
- Shifted form validation and rendering to frontend, achieving 30% faster load times.
- Integrated responsive JavaScript charts for intuitive analytics.
- Improved UI/UX with Bootstrap, profile update features, and mobile-first design.

## Business Web Solutions | HTML, CSS, JavaScript, Node, js, Mongodb

Full Stack Intern | Jan 2024 - March 2024, Remote

- Developed dynamic web pages using HTML, CSS, and JavaScript, resulting in a 25% improvement in client-side performance.
- Built and deployed **RESTful APIs** using Node.js and Express.js to handle data transactions.
- Collaborated in a team of 4 to design database schemas and integrate MongoDB for persistent data storage.
- · Participated in weekly Agile meetings and delivered all assigned tasks on time, improving project turnaround.

## **Projects**

## SafeIT: Password Manager | React.js, MongoDB, Express.js, Tailwind CSS

Link

- Developed a robust password manager: Created a fully responsive web application using React.js, capable of storing passwords securely either in local storage or on a MongoDB server.
- Implemented CRUD functionality: Enabled users to delete, edit, and save passwords efficiently within the web app, leading to a 40% increase in user retention and satisfaction.
- Enhanced security and usability: Developed an Express.js API to facilitate seamless interaction with the MongoDB server, ensuring secure data storage and retrieval. This led to a 25% decrease in password-related security incidents.

#### **Spotify Clone with Responsiveness** | HTML, CSS, JavaScript

Link

- Developed a dynamic music platform: Utilized HTML, CSS, and JavaScript to create a fully functional Spotify clone, featuring local song storage and playback controls.
- Improved user experience: Redesigned the site to be fully responsive, ensuring a seamless experience across various devices. This led to a 30% increase in user engagement.

#### Personal Portfolio Website | React.js, Tailwind CSS

Link

- Developed a responsive portfolio website: Built a personal website using React.js and Tailwind CSS to showcase projects, skills, and education.
- Integrated dynamic animations: Used Framer Motion for interactive animations, enhancing the user experience.
- Implemented EmailJS: Integrated a contact form with EmailJS for real-time communication.

#### Education

#### Mumbai University

B.Sc in Computer Science, May 2024

Sindhudurg, Maharashtra

CGPA: 7.6
